	<hr/>
Balance against the town Feb. 15, 1894,	\$ 971 40
Liabilities Feb. 15, 1895,	\$ 1,795 18
Assets Feb. 15, 1895,	1,476 78
	<hr/>
Balance against the town, or debt, Feb. 15, 1895,	\$ 318 40
Decrease of balance, or debt, during the year,	<hr/> \$ 653 00

In order to make a fair comparative statement for the year, we have in the foregoing report of assets and liabilities for last year, eliminated from the assets the old hearse and included in the liabilities the dog licenses. This year we have done the same, as the hearse is not an available asset until sold, and dog licenses are by statute appropriated for the support of schools. Also the appropriation made at the last annual town meeting for a public library is placed in the liabilities, as no organization has been effected to call for the same. In making this change in reporting assets and liabilities, we make the actual indebtedness of the town \$318 40. Had we continued to adopt the previous method, this report would show the town out of debt and with a surplus of \$152 20. There are no liabilities known to us that are not included in this report.

Gorham, N. H., Feb. 15, 1895.

A. N. TWITCHELL,	} Selectmen of Gorham.
J. C. BURBANK.	
A. M. HUBBARD.	

We hereby certify that we have examined the foregoing report of the Selectmen and vouchers for the bills paid, and find the same correct.

Gorham, N. H., Feb. 20, 1895.

ALFRED R. EVANS,	} Auditors.
BENJAMIN PRATT,	

UNAVAILABLE ASSETS.

The town now owns the following property which cost nearly \$ 4,000.00 :

Gravel lot, head of Church street.

Fire engine house, No. 1.

“ “ “ No. 2, and land, Upper Village.

Two hand fire engines.

Two hose carriages.

1200 feet of hose with nozzles and fixtures.

Two hook and ladder carriages, ladders, buckets, etc., complete.

One new and one old hearse.

Lock-up, foot of Mechanic street.

One road machine.

One snow roller.

Water tub and fountain.

BOARD OF HEALTH REPORT.

TO THE SELECTMEN OF THE TOWN OF GORHAM :

The Board of Health submit the following report for the year ending Feb. 15th, 1895 :

During the month of May we made a general inspection of the village, visiting every building and its surroundings, and making many suggestions. In nearly every case the suggestions given were well received and promptly acted upon, so that we are glad to say the sanitary conditions of the town are as good, perhaps, as they can be without a sewerage system.

Scarlet fever, in a mild form, prevailed to some extent during the spring and early part of the summer, but in all cases reported, isolation and other precautions were employed with gratifying results. The mildness of the disease should in no way lessen the use of restrictive measures, for malignant and fatal cases are often contracted from a mild form of the disease. Therefore every family should guard against it by using every available precaution with as much vigor as would be used against the most dreaded disease.

There have been but a few cases of typhoid fever and diphtheria reported in the past year but in all such cases isolation of the families was insisted upon with good effects. Typhoid fever and diphtheria are largely filth diseases, hence, are in a measure preventable. Many attribute the cause of the disease to a specific germ which is not produced by filth, but if the germ is present, filth and unsanitary conditions favor its growth and propagation, therefore you can readily see the importance of putting and keeping our premises in as good sanitary condition as possible, thereby diminishing their prevalence.

The Board has given considerable attention to the condition of our school houses. The privies connected therewith are much of the time in an unsightly condition, and the surroundings unclean. In this age of progress, when the activity of the brain is intensified by the present educational system, which hurries through a multiplicity of studies in the shortest possible time, the demands upon the physical system must, of necessity, be greater and should not be neglected. Thus you can see the importance of providing our pupils with all the essentials of perfect health, in order that they may not be broken down physically. Our Board of Education should recognize the fact that the hygienic and sanitary condition of our school-houses is a responsibility of the first importance resting upon them. They are thus accountable for any failure in cleanliness and ventilation, which are necessary conditions for the successful maintenance of every school.

Gorham has become, to some extent, a town of summer resort, on account of its beautiful scenery and pure spring water. The summer visitors grow more thoughtful each year of bad sanitary conditions and are demanding that the places in which they spend their vacation shall possess as little objection in this direction as is possible. The purity of its water, the cleanliness of its streets, the tidiness of its buildings and last, but not least, its sewerage, are all often inquired about with a great deal of interest. The town that best provides for all these, everything else being equal, will receive the most patronage. It therefore behooves us, one and all, to see that all sanitary rules are rigidly enforced, thereby making our village as attractive as possible to the summer tourist, and right here we would say that our sewerage is not just what it should be. The sewerage from the railway station, Alpine House and Park street is first-class, emptying into the river. More sewerage is needed and we would suggest that the town do something in this direction the coming season. Undoubtedly, well constructed sewers have done a great deal toward lessening all germ diseases.

There has been some expense incurred in a few cases where complete isolation has been observed, the whole expense amounting to twenty-nine dollars and sixty-nine cents, (\$29.69.)

Respectfully,

SIMON STAHL,	}	Board of Health.
HENRY MARBLE, M. D.

C. G. HAMLIN, }
R. H. EMERSON, } Auditors,

REMARKS.

Another school year has gone and is now among the things of the past. We have tried, however, to make the year a successful one, and in some measure have succeeded, all things considered. We have been fortunate in securing capable teachers, which have been of great advantage both to the Board and the Town.

In the Peabody district we have been obliged to open another school and employ an extra teacher, which make our expenses more than they otherwise would be.

During the Fall and Winter terms one school has occupied the firemen's rooms, but they have been notified to vacate at once. No room being available this will leave one class and one teacher without any school-room, and the class of over twenty scholars, as well as the new ones commencing in the Spring will, for the present at least, be without school privileges.

We need more school room; more play grounds, and better sanitary arrangements. The room occupied by the Grammar school and also one of the Primaries being in the ell part of the building and so near the closets render them wholly unfit during the months of May and June for occupancy as school rooms. Something should be done very soon in the line of school accommodations as scholars are rapidly multiplying.

We would therefore recommend that this whole matter be considered immediately, and that a sufficient sum be appropriated, and a committee selected to expend the appropriation and place our schools on a firmer foundation.

Our appropriations from all sources the present year were \$4,097.-41. From that amount we had to deduct \$224.22 to take up G. E. Buck's note. This left us \$3,873.19 with which to carry on the work with one additional school. A difference of \$185.26 less than the previous year. This will account for the \$130.61 now unprovided for as per our report.

A. S. TWITCHELL,	}	School
